Letter of Recommendation

To Whom It May Concern:

It is my pleasure to write this letter of recommendation for Clearfield Construction, the general contractor that successfully completed the Bullis County Park Waterline Extension Project for Bexar County Facilities and Parks, on November 13, 2013, two weeks ahead of schedule.

The project involved extending the waterline to the park perimeter to tie into the water service line, boring under Old Blanco Road, plugging a well, installing a meter, a pressure reducing valve, and a reduced pressure backflow preventer. There were two change orders that involved installing a pressure reducing valve and relocating a saddle-tap, both were provided at cost as the contractor knew we had a limited budget.

Both Claudia Berdegú and Mariano Molina of Clearfield Construction were easy to work with, accessible and highly responsive to the project's needs. During the course of the project we met several times to discuss project advancement and issues at hand. After each meeting Clearfield Construction promptly prepared and shared the meeting minutes with the entire team via email. Clearfield Construction communicated with us almost on a daily basis and kept us informed of project advancement.

It has been a pleasure to work with Clearfield Construction on this successful project. I recommend this company without any reservation.

Sincerely,

A handwritten signature in blue ink that reads 'J. Jay'. The signature is written in a cursive, flowing style.

J. Jay
Construction Coordinator
