

## CITY OF SAN ANTONIO

To Whom It May Concern

It is my pleasure to offer this letter of recommendation for Clearfield Construction Company.

Clearfield Construction was contracted by the City of San Antonio to construct a twenty nine space parking lot for our venue, the Carver Community Cultural Center. When water seeped into our facility and damaged carpet in one of the dressing rooms, Clearfield Construction installed new carpet not only in that room, but in the second dressing room as well. They went further and replaced a large floor mirror, then lowered one of the PVC pipes they installed to prevent problems in the future. They also painted a utility box, and installed additional cobble rock to drainage areas around the parking lot curve and near the adjacent school. In an effort to deliver an outstanding product and service, this was all done at their cost.

Clearfield staff and subcontractors were always professional and courteous and easy to work with. If an issue was brought to their attention, they didn't hesitate to take care of it, usually on the spot.

I would be more than willing to work with this company in the future and highly recommend their services. Should you have any questions, I can be reached at 210-207-7224.

  
Yonnie M. Blanchette  
Executive Director  
Carver Community Cultural Center
