To Whom It May Concern:

Clearfield Construction has provided outstanding construction services for an approximately \$1,200,000 bike and hike trail project for The City of San Antonio. Clearfield Construction operated in a most efficient and professional manner -- always with positive results. Their well-trained crew performed their tasks with diligent conscientiousness, which resulted in an esthetically pleasing project.

I highly recommend others to consider using Clearfield Construction on other projects.

You are welcome to call me if additional information is needed.

Sincerely,

Agdel Rivera
Project Manager
Greenway Trails Division
