Domingo Gutierrez, Asst. Principal

Greetings,

It is my pleasure to highlight the positive experience I had with Clearfield Construction. The company recently completed a parking lot project for Terrell Wells Middle School. The project began in December 2016 and was completed during March 2017. The project was completed in 2 phases which accommodated our parking needs. They were not intrusive and easy to work with. Despite the rain delays, the company was able to finish on schedule.

Claudia was delightful to work with. She maintained a positive, energetic attitude that contributed to the timely completion of the project. She met with our team frequently and provided solutions to our concerns. The company completed several additional tasks with no additional cost.

I would recommend Clearfield Construction based on their high quality of work, thoroughness and effective communication.

Sincerely,

Jessie Gippich
Principal
